Re: N.O.V. 94-45-1-1
Step 2 Abatement
Gordon Creek No. 2/7/8 Mines
ACT/007/016
Carbon County, Utah #2

Orig. to file

Copy Amended file

Dear Ms. Littig:

Enclosed are the results of a Sed-Cad analysis (Sediment Production Evaluation) for the Old Fan Portal Area of the Gordon Creek No. 2/7/8 Mines. This evaluation is provided to satisfy abatement Step #2 of the above referenced N.O.V.

Results of the evaluation indicate the runoff from the area will meet effluent limitations without using B.T.C.A. as requested in the N.O.V. This information is also provided in the Technical Deficiency response for the permit under Appendix 7-3.

If you have and questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy,
for Paige B. Beville
