RE: Technical Analysis and Findings for Reclamation Plan, Mountain Coal Company, Gordon Creek #2, #7, & #8 Mines, ACT/007/016, Folder #3, Carbon County, Utah

Dear Mrs. Beville:

The Division has completed a Technical Analysis of the reclamation plan for the Gordon Creek #2, #7, & #8 mines, as agreed in our meeting held on March 22, 1995. Enclosed is a copy of the analysis for your use and records. You should note that the analysis identifies certain deficiencies in the reclamation plan and this being the case the TA is not considered final at this point. Finalization of the TA will occur when the deficiencies have been corrected and the plan has been brought into compliance with all applicable regulatory requirements.

At this time you should review the analysis and address the identified deficiencies. As per our discussion in the aforementioned meeting a response should be made by April 17, 1995.

If you have any questions, please call.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
