Re: ~~Proposed Basins/Gabions~~  
 Gordon Creek No. 2/7/8 Mines  
 ACT / 007 / 016  
 Carbon County, Utah

# 2  
 Copy Dave Darby/Je

Dear Ms. Littig:

This letter is to inform you of our intent to remove approximately 8 silt fences and replace them with sediment basin/rock gabion structures along the county road below our Gordon Creek No. 2/7/8 Mine gate.

This course of action was suggested by Mr. Dave Darby during an inspection on 06/03/97. I agreed to have this completed by 06/10/97. Because of the short time frame, Mr. Darby suggested I write a letter explaining our intent and follow it up with the plans. The plans will be submitted by 06/15/97.

If you have any questions, or need any further information, please let me know.

Respectfully,

Dan W. Guy
