Re: Approval to Change Seed Mixture, Mountain Coal Company, Gordon Creek 2, 7 & 8 Mines, ACT/007/016, Folder #2, Carbon County, Utah

Dear Mr. Guy:

*Approvals to #3*

As discussed today with Division Biologist, Susan White, you are approved to not use the riparian seed mixture supplement when seeding the riparian areas at the above referenced mine. This supplemental mixture is identified in the Mining and Reclamation Plan on page 3-55. Please report this change in the Annual Report under Technical Data, Seed Mix Alterations & Substitutions.

If you have any questions please call me 538-5290.

Sincerely,

Joseph C. Helfrich  
Permit Supervisor
