2. Signs and Markers

Although access to the site was not possible, the sign with the required information could be seen from the turnoff below the Horizon mine.

4.d Hydrologic Balance: Water Monitoring

Dan had recently received hard copies of the monitoring data for the third and fourth quarters of 2004. The data has been entered and uploaded in the data base.

16.a Roads: Construction, Maintenance, Surfacing

Typically, the access road to the site is plowed since it is a county road. During this time of year, the mine site is usually accessible by 4 wheel drive vehicle. However, recent heavy snows and plowing have blocked access to the site.
