Subject: Gordon Creek 2, 7, and 8 1st Quarter 2007 Water Monitoring

Pam:

I have successfully uploaded the 1st quarter water monitoring results for the Gordon Creek 2, 7, and 8 mines to the EDI. I have also uploaded the first two months of the second quarter of 2007 to the EDI. While uploading a comma delimited file from SGS for site 2-2-W, the information or data appeared not to go through. I then, without difficulty, hand loaded all the data. So, the SGS lab data I tried to upload may still be floating about the ethernet or in an electronic prison within the state's data system. If found, please delete!

C/007/001E*

If you have any questions about the data, please feel free to contact me.

Thanks,

Chris
