Hi, Dan. would you please give me some completion dates and the name of  
the County Road Supervisor?

Thank you.

Pam

Re: Removal of Gordon Creek 2/7/8 Sediment Ponds

This e-mail will confirm that Mountain Coal Company has completed the  
removal of the Gordon Creek No. 2/7/8 Sediment Ponds. The ponds were  
removed, the channel was restored and the area was reclaimed per the  
approved reclamation plan. The county road was also restored to its  
original end point, as required. The only remaining work at the site is the  
installation of a temporary fence along the restored county road to restrict  
access until vegetation is established.

The reclamation has been observed by DOGM personnel and verbally approved  
by the County Road Supervisor and the Landowner, (Mr. Mark Jacob).
