Chris,

Sorry for the delay and confusion as to who had the responsibility for uploading this data. I have uploaded all of the information for Gordon Creek 2, 7, & 8 from the pipeline into the database. A report is attached.

According to the MRP and my checking of the database you have included all required samples and parameters for the 1st quarter of 2007.

Please let me know if you have any questions.

Thank you,

Pam:

I have successfully uploaded the 1st quarter water monitoring results for the Gordon Creek 2, 7, and 8 mines to the EDI. I have also uploaded the first two months of the second quarter of 2007 to the EDI. While uploading a comma delimited file from SGS for site 2-2-W, the information or data appeared not to go through. I then, without difficulty, hand loaded all the data. So, the SGS lab data I tried to upload may still be floating about the ethernet or in an electronic prison within the state's data system. If found, please delete!

If you have any questions about the data, please feel free to contact me.

Thanks,  
Chris
