Subject: 1st Quarter 2008 Water Monitoring @ Gordon Creek

During the first quarter of 2008, the remaining water monitoring sites at the Gordon Creek 2, 7 and 8 Mines were inaccessible due to depth of snow cover. Two attempts were made in March to access the sites, one on the 24th of March and then again on the 31st of March. Therefore, the sites have been entered into the EDI as "Inaccessible" during the first quarter of 2008.

If you have any questions regarding the first quarter water monitoring data, please let me know.

Thanks,

Chris Hansen
