Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The access road to the reclaimed Gordon Creek 2 / 7 and 8 Mines was checked this day, to determine if an inspection was possible. Much of the snow on the road has melted off, and access to Bryner Canyon was possible. One could see the gate holding the Permittee identification sign, approximately 200 feet away. Snow was melting and the road was muddy; a decision was made to wait another month to attempt to make the required quarterly complete inspection.
