Daron:

After the recent mid-term review of the GC 2, 7, & 8 MRP, I received a deficiency that required the ownership and control information be updated in the document. I have been trying to get the most recent information from our corporate folks to submit a response but apparently with the recent board meetings and apparent changes in corporate structure, they are having trouble getting it done. I am traveling to St. Louis today and will try to get this data while I am there. My deadline for submittal is the 2nd of March. It is unlikely that I can make this deadline assuming these folks have the information in line. I am therefore asking for an additional 14 days to respond to this deficiency. If the corporate folks have the information this week while I am in St. Louis, I should be able to get it in sooner. However, I would hate to promise and not be able to deliver on a sooner date.

I appreciate your help in this matter.
