Amanda and Steve:

I have uploaded the 2nd and 3rd Quarter 2016 water monitoring results for the Gordon Creek 2, 7 & 8 Mines to the EDI. I was successful in uploading the 2nd quarter data however I have an errant parameter, Fixed Dissolved Solids, in the 3rd quarter data. We do not analyze for this and do not have results for this analysis. Can you please remove that parameter and then I can complete the upload for that quarter. As I recall, the system has been modified that does not allow submitters to remove parameters once uploaded. Thanks for your help on this matter.

Thanks,

Chris D. Hansen
