RE: Mid-term Review Deficiencies, Task #5450
Canyon Fuel Company, LLC Gordon Creek 2, 7, and 8 Mines, Permit #
C/007/0016

Dear Mr. Haddock:

Recently, Canyon Fuel Company, LLC submitted a response to the original Gordon Creek 2, 7 & 8 Mid-term review deficiencies. While most of the deficiencies were addressed, a few remained. Currently, I plan to meet with Mr. Joe Helfrich of your staff the week of the 17th of July to discuss the deficiencies he identified and that were not adequately addressed in our previous submittal. While I anticipate we should be able to reach an agreeable solution during our meeting, it will take place after the Division's due date of July 14th to have addressed the latest round of deficiencies. Therefore, I am requesting additional time to address the latest, and I anticipate, last set of deficiencies identified in the permit. An additional 30 days should be more than adequate time to complete this task.

If you have any questions regarding this request, please give me a call at (970) 261-1425.

Sincerely,

A handwritten signature in blue ink that reads "Chris D. Hansen".
