ACT/007/018-88(A), Folder No. 3, Carbon County, Utah

Dear Ms. Linner:

The approved exploration drilling program at Soldier Canyon Mine was a program to drill five shallow test holes to determine the ground structural conditions at location for a new portal. An application for the construction of the portal area will be forthcoming to your office.

The contained stipulations, 4 through 9, attached to the drilling program, are no longer fitting and should be released.

The construction of the portal area will cover the ground of the borehole locations and all reclamation work will be done next summer when construction work is completed.

Should there be further concerns, please contact John Miley at this office.

Sincerely yours,

Area Manager
