Re: Annual Emissions Inventories for 1989 and 1990

Dear Mr. Pappas:

It is our understanding that your permit with the Division of Oil, Gas, and Mining requires that you submit an air emissions inventory once every other year. Our records indicate that although you had requested such an inventory for 1989, we were unable to provide you with one. Due to the lack of manpower and resources, an annual emission inventory for sources in your area was not compiled for 1989.

An emission inventory has not been compiled for 1990. Although we had indicated to you that we were planning to do an inventory for 1990, we were once again short of manpower to accomplish the task. If you have any questions, please contact me at 536-4000.

Sincerely,

Bill Reiss
Environmental Health Engineer
Utah Bureau of Air Quality
