RE: Deficiency Response for # 3 Fan Exploration Site
ACT/007/018

Dear Daron:

I have enclosed two copies of my response to your deficiency letters dated February 26, 1992 and March 20, 1992. This information has been formatted for direct incorporation into our approved MRP.

Your approval of the enclosed interim revegetation and stabilization plan for the #3 Fan Exploration site is requested. Please be aware that the enclosed submittal describes this "proposed" plan as if it had already been implemented. This makes incorporation of the information into the MRP more consistent with the longterm needs (as per our 4/1/92 telephone conversation).

Soldier Creek Coal Company is prepared to implement the proposed reclamation of the #3 fan site immediately following DOGM's approval. Please be reminded that timing is critical for the success of spring reseeding. Your review and approval of the proposed plan, at your earliest convenience, would be appreciated.

Please contact me if you have any questions.

Sincerely,

SOLDIER CREEK COAL COMPANY

David G. Spillman
Mine Engineer
