Dear Mr. Paluso:

Re: Extension of Time for Technical Deficiency Review Response, Soldier Creek Coal Company, Soldier Canyon Mine, ACT/007/018, Folder #3, Carbon County, Utah

The Division has reviewed your request received May 8, 1992, for additional time to complete the response to technical deficiencies brought up during your recent permit renewal. As per our phone conversation we have determined that a four month extension is acceptable under the circumstances.

You should now respond to the technical deficiencies by no later than September 8, 1992. We encourage you to make every effort to correct the deficiencies before that date. Failure to do so may result in enforcement action and further extensions would be difficult to justify.

If you have further questions please call me or the appropriate member of my staff.

Sincerely,

A handwritten signature in cursive script that reads "Lowell P. Braxton".

Lowell P. Braxton
Associate Director, Mining
