RE: Remaining Deficiencies in Response to Division Order #92A
Permit Renewal Soldier Canyon Mine-ACT/007/018

Dear Mr. Haddock:

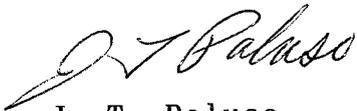

The purpose of this letter is to confirm our conversation of January 19, 1993. As per our discussion, Soldier Creek Coal Company is in the final stages of selling the mine. Until the sale is completed, it is very difficult to determine the direction and mining methods the new company will want to take with the mine. Because of this situation and the lack of manpower, at this time it is very difficult to respond to your letter dated November 25, 1992.

I would like to request an extension of the January 25, 1993, deadline as stated in your November 25 letter. This extension will provide the necessary time to involve a hydrologic consultant in the response. Items that do not require hydrologic input or extensive review will be submitted by March 31. The remaining items will be completed by June 1.

It is felt that the above request is reasonable and will not jeopardize the environment or the review process. If you have any questions please call.

Sincerely,

SOLDIER CREEK COAL COMPANY

J. T. Paluso
Chief Engineer
