RE: Application for Permit Transfer -- Soldier Canyon Mine,  
ACT/007/018

Dear Daron:

Enclosed please find three copies of a revised Application for Permit Transfer of the Soldier Canyon Mine permit. This September 2 revision incorporates changes to satisfy the deficiencies discussed in Paul Baker's September 1 review.

Also enclosed is a five dollar check to cover the application fee and a copy of a settlement agreement between Virginia Iron, Coal and Coke Company and OSM which resolved an outstanding AVS issue at our Virginia Iron, Coal and Coke operations.

The Permit Transfer Application document was modified as follows:

- Paragraphs three and four of the introduction were modified and a fifth paragraph was added to recognize more accurate permit transfer timing expectations and to provide a commitment that the information provided in the application will be incorporated in Chapter One of the currently approved Soldier Canyon Mine Mining and Reclamation Plan within 60 days of the acquisition closing.
- A statement is provided defining the type of entity of the applicant (Page 3).
- A statement is provided that Soldier Creek Coal Company will pay required abandoned mine land fees (page 3).
- A statement is provided regarding other coal mining and reclamation operations owned or controlled by the Coastal Corporation (page 7).
- The list of all Coastal's coal company permits has been revised to include MSHA numbers, date of MSHA number issuance and employer identification numbers (Page 11).
- A statement regarding the status of unabated cessation orders and air and water quality violation notices has been added (Page 30).

- The legal or equitable ownership of surface and mineral properties to be mined has been corrected (Page 26).
- The Affidavit of Publication of the newspaper advertisement has been added as Appendix 1-2.
- The notarized letter sent to you August 11, 1993 verifying accuracy of the Application has been added as Appendix 1-3.
- Arrangements have been provided for the Certificate of Liability Insurance to be inserted later as Appendix 1.4. The Certificate should be provided to you from either our Houston or Roanoke office on Wednesday, September 8, 1993.

Some concerns described in Paul Baker's review regarding listed eastern operation permit numbers in comparison with those reported in the Skyline Mine and the SUFCO Mine plans are explained as follows:

Permit number H-612 is mis-typed in the Skyline and SUFCO plans. The correct permit number is P-612.

The Enterprise Coal Company permit numbers 067-0005, 067-0052, and 067-057 were interim program permits issued by the State of Kentucky which have since been re-issued under the permanent enforcement program with new numbers.

The bond for the Loggy Hollow permit number 6571-71 was released June 1, 1989.

The Whitaker Branch Application for permit number 867-5104 was permanently withdrawn. This number was never issued.

The Apache Mining permit number 867-6018 was transferred to PC&H Coal Company. Apache's bond was released on January 2, 1990.

The Apache mining permit number 898-8011 is a typographical error. The correct permit number is 498-8011 which is listed properly in this Permit Transfer Application.

All Birmingham Coal Company permits were reassigned to Virginia Iron, Coal and Coke Company and are listed in this Permit Transfer Application.

As mentioned above, the Certificate of Insurance will be provided to you next Wednesday. Coastal's replacement reclamation bond should also be in your hands by then.

Re: Application to Transfer Mining Permit No. ACT/007/018 for Soldier Creek Coal Company's Soldier Canyon Mine

Dear Mr. Carter:

This application for approval of transfer of Mining Permit No. ACT/007/018 for the Soldier Canyon Mine is submitted pursuant to R645-303-300.

1. R645-303-321.100: The name of the current permittee is Soldier Creek Coal Company ("Soldier Creek"), P.O. Box I, Price, Utah 84501, with respect to Permit No. ACT/007/018 for the Soldier Canyon Mine.
2. R645-303-321.200: The Soldier Canyon Mine is currently operated by Soldier Creek pursuant to Permit No. ACT/007/018. One hundred percent (100%) of the stock of Soldier Creek is owned by Sage Point Coal Company ("Sage Point"). In turn, 100% of the stock of Sage Point is held by Elk River Resources, Inc. ("Elk River"). On July 3, 1993, Coastal States Energy Company ("Coastal States") signed an acquisition agreement with Elk River to purchase 100% of the Sage Point stock. This acquisition is currently under review by the Department of Justice and the Federal Trade Commission pursuant to the Hart-Scott-Rodino Act.

Upon completion of this transfer, Permit No. ACT/007/018 will continue to be held by Soldier Creek, same address as above. In effect, neither the permittee (Soldier Creek) nor the parent (Sage Point) of the permittee will change, but, rather, Coastal States will merely replace Elk River as the parent of Sage Point.

3. R645-303-321.300: Enclosed herewith are 3 copies of the Application for Permit Transfer, pertaining to "Legal, Financial, Compliance and Related Information," which reflect the modifications to the listed ownership of Soldier Creek and of Sage Point. In this regard, it should be noted that the officers and directors named in the current Chapter 1 will remain in effect until this transaction is closed, whereupon the officers and directors recited in the enclosed permit transfer application will be appointed.

Please review the information and initiate any required public comment period, such that Coastal States can be provided assurance that Permit No. ACT/007/018 can be transferred without interruption to Soldier Canyon Mine production.

Should a review of this submittal identify the need for additional information or clarification of any items, please notify us immediately.

Obviously contingent upon our submission of a replacement surety bond, we request that this permit transfer be made effective on the closing date for the above transaction. The pertinent date will be provided to you once the H-S-R review has been concluded.

We appreciate the assistance and cooperation of your staff in the preparation and review of this submittal.

### **1.13 Violation Information**

Neither the Applicant, nor any of its subsidiaries, affiliates, or persons controlled by or under common control with the Applicant has had a Federal or State mining permit suspended or revoked in the last five years; nor forfeited a mining bond or similar security deposit in lieu of bond.

To applicant's knowledge, there are no unabated cessation orders and air and water quality violation notices received prior to the date of application by any coal mining and reclamation operation owned or controlled by either the applicant or by a person who owns or controls the applicant.

Table 1-1 contains the NOV history for the Soldier Canyon Mine (and the associated Banning Loadout). Table 1-2 contains the NOV history for Coastal States Energy Company's SUFCo Mine. Table 1-3 contains the NOV history for Coastal States Energy Company's Skyline Mine.

### **1.14 Right-of-Entry Information**

Legal Right-to-entry documents are listed in Section 1.14 of the approved Mining and Reclamation Plan as revised October 11, 1991.

### **1.15 Status of Unsuitability Claims**

To the best of the Applicant's knowledge, no portion of the area to be permitted is designated, or under study for being designated, unsuitable for mining.

Since the Soldier Canyon Mine was in production before passage of the Surface Mining Control and Reclamation Act of 1977, the unsuitability criteria was not applied to the existing surface facilities.

The Applicant does not propose to conduct coal mining or reclamation operations within 300 feet of any occupied dwelling. Coal mining and reclamation operations have been or will be conducted within 100 feet of a public road.

### **1.16 Permit Term**

Permit term information is in Section 1.16 of the approved Mining and Reclamation Plan.

### **1.17 Insurance and Proof of Publication**

Certificates of Insurance issued to Soldier Creek Coal Company are located in the approved Mining and Reclamation Plan and in the Reclamation Agreement.

The legal notice appears in Appendix 1-1. Verification of the legal notice appearing in the appropriate newspaper will be added to Appendix 1-1 and submitted to the Division no later than four weeks after publication.

### **1.50 Completeness**

The Applicant believes the information in this permit application to be complete and correct.
