The Division has conducted an Initial Completeness Review on the Applications for Permit Transfer received on August 9, 1993. Additional information was provided on August 11, 1993. Upon reviewing all of the information it has been found to be adequate to determine the application package administratively complete for publication purposes.

A technical review of the applications has been initiated. Any technical deficiencies will be forwarded to you as the review is completed. Issues raised will need to be resolved prior to transfer approval.

At this time you should publish a Notice of Application for Permit Transfer as required by R645-303-322. The affidavit of publication should be sent to the Division as soon as it is available.

Please call if you have any questions.

Sincerely,
