Dear Mr. Olsen:

The Division has reviewed your March 4, 1997 response to deficiencies previously identified in your application for permitting the Alkali lease. While many of the deficiencies have now been addressed there still remain a few that require your further attention. The enclosed Technical Analysis outlines the remaining deficiencies. Please review it carefully making sure you understand the requirements, and provide the necessary information. In order for us to keep this project on track we will expect your reply by no later than May 19, 1997.

If you have any questions, please call me or my technical staff.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".
