ADMINISTRATIVE OVERVIEW

Canyon Fuel Company, LLC
Soldier Canyon Mine
Five Year Permit Renewal
ACT/007/018

February 3, 1997

PROPOSAL

Soldier Creek Coal Company (SCCC) made application to the Division of Oil Gas and Mining for a five year permit Renewal for the Soldier Canyon Mine on October 3, 1996. On December 20, 1996, this permit was transferred from Soldier Creek Coal Company to Canyon Fuel Company, LLC. This renewal encompasses the permit area, including two incidental boundary changes for the Alkali Lease Tract (Federal Lease UTU-69635).

BACKGROUND

The Mining and Reclamation Plan (MRP) for the Soldier Canyon Mine was originally approved by the Division of Oil, Gas and Mining (DOG M) and the Office of Surface Mining Reclamation and Enforcement (OSMRE) on June 10, 1985. The approved permit area consisted of two federal coal leases, SL-051279-063188 and U-50722, encompassing 2,143.81 acres. The Bureau of Land Management (BLM) administered 590 of those acres and the remainder were privately owned.

In June of 1986 SCCC was sold to the Sun Company. A new MRP was submitted which incorporated two new state coal leases (ML-21994 and ML-22675) and portions of two other state leases (ML-42648 and ML-42649), held by affiliates of Sun Company, into the permit area. The new MRP was approved by DOGM on February 3, 1987, bringing the permitted area to a total of 4,347.99 acres. Due to the extensive additions to the permit area and submittal of a complete new MRP, a new five-year permanent program was issued with that approval.

SCCC acquired state lease ML-44365 on April 3, 1989 and requested that it be added to the permit area on April 17, 1989. The lease encompassed 557.20 acres. A revised mining permit incorporating lease ML-44365 was issued on August 8, 1989. This brought the total permit acreage to 4905.19 acres.

A topsoil/substitute topsoil storage site, consisting of an additional 4.5 acres was added to the permit area on May 28, 1991, bringing the total permit acreage to 4909.69 acres.

Administrative Overview
ACT/007/018
February 3, 1997

In order to accommodate an increase in production and additional expansion at the mine site, SCC required more space. A surface expansion was approved in June 1991. The applicant proposed to increase intake capacity for the ventilation network and update the coal handling and transportation facilities at the mine. The total increase area of surface disturbance for the site was 5.6 acres and increased the bonded and disturbed area from 32.2. to 37.8 acres. The stretch of county road going through this area was also relocated.

On May 14, 1996 an incidental boundary change was approved to allow mining in the Alkali Lease (UTU-69635). This consisted of only 276 acres of the lease and was done to allow SCCC to continue mining while the application for the entire lease was being processed. The application for the entire Alkali Lease was submitted on May 31, 1996.

However, SCCC encountered burn in the incidental boundary change and quickly needed to alter their mining sequence. Therefore, a second incidental boundary change was submitted on October 3, 1996 for 186 acres and was approved on November 5, 1996 by the Division and received mining plan approval on December 19, 1996. The significant revision to mine the entire Alkali Lease Tract is still being processed to date.

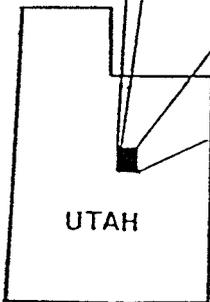

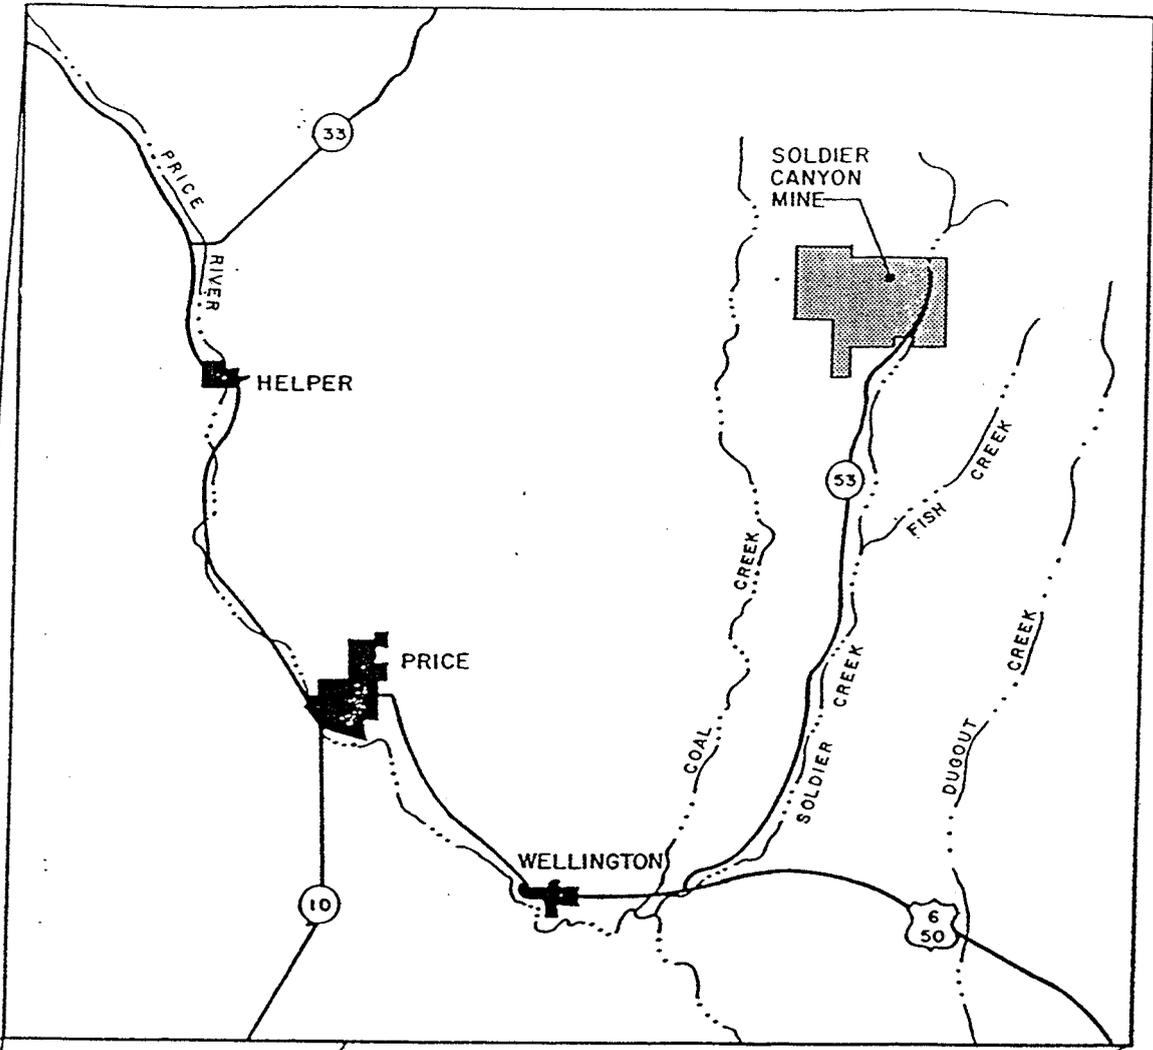

On October 3, 1996 the permit renewal for the Soldier Creek Mine was received with a number of permit changes. On October 18, 1996, the Division notified the permittee that these permit changes would be processed separately as ACT/007/018-96A.

On December 20, 1996, the permit was transferred from Soldier Creek Coal Company to Canyon Fuel Company, LLC.

RECOMMENDATION

The application for a successive permit renewal has met the requirements for approval. The permit renewal was advertised in the Sun Advocate on November 7, 14, 21, and 28, 1996 and no comments were received. This permit renewal should be approved.
