RE: Canyon Fuel Company, LLC. - "Soldier Canyon" Mine - Application for a Permit  
Revision, Revision of General Chapter 1, Task ID No. 2296

*J. King*  
C/007/0018

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGM) August 17, 2005, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Degas Well G-7, has determined that it proposes to update the legal, financial, ownership and control, and other administrative information of the approved permit application package for the Soldier Canyon mine, Utah State permit C/007/018.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Revision of General Chapter 1, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the August 17, 2005, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

**TAKE PRIDE<sup>®</sup>**  
**IN AMERICA** 

In an electronic transmittal dated August 18, 2005, the U.S. Forest service stated it had no comments or concerns with the permit revision.

In an electronic transmittal dated August 17, 2005, the Bureau of Land Management stated in its opinion the permit revision did not constitute a mining plan action requiring Secretarial approval.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

  
Ranvir Singh  
Manager, Northwest Branch
