Vicky,

I have uploaded all of the information for Soldier Canyon and Banning from the pipeline into the database. A report is attached.

According to the MRP and my checking of the database, you have included all required samples and parameters for the 4th quarter of 2007.

I also fixed the HZL-504 sample at Dugout, it looks like you got the Outfall 003 fixed on your own.

Please let me know if you have any questions.

Thank you,

Dana and Steve,

The information currently in the pipeline should complete the water sampling data for the 4th quarter at Soldier Canyon Mine and at the Banning Loadout. Please contact me if there are any problems with the data. Thanks, Vicky Miller
