RE: Temporary crushing facility

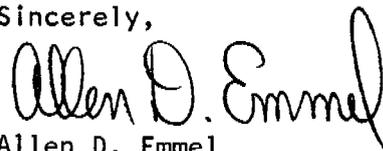

Dear Mr. Hedberg:

In a letter dated August 14, 1984, the Division granted approval for the installation and operation of a portable crushing facility at Tower's Pinnacle minesite. The stipulations attached to the Division's approval required that clearance be obtained from the Utah State Health Department, Bureau of Air Quality prior to installation or operation of such a facility.

Plans for the installation and operation of the proposed crushing facility have been reviewed and approved by the Bureau of Air Quality. Based on this approval, Tower plans to proceed with construction and installation activities immediately. Tower will forward to the Division a copy of the Bureau's letter of approval.

If you have any questions, please contact me.

Sincerely,

Allen D. Emmel
Environmental Coordinator
