DIVISION OF
OIL, GAS & MINING

Attention: Susan C. Linner

Dear Ms. Linner:

This letter will serve to notify the Division that in response to your letter dated November 20, 1987, Andalex has initiated the additional tests required by James Leatherwood's file memo on the sediment pond waste.

It was recently brought to my attention during an inspection that the Division Hydrologist felt that Sediment Pond B may not be required because of existing over-capacity. We would be very interested in his findings.

Andalex will leave the material in pond B until we come to an agreement as to where the material is to be permanently stored.

I will forward the additional data to you immediately as it becomes available. Thank you.

Sincerely,

Michael W. Glasson
Senior Geologist
Western Operations
