October 5, 1987

State of Utah
Department of Natural Resources
Division of Oil, Gas and Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Attention: Lowell Braxton

Dear *Lowell* Mr. Braxton:

Attached hereto is the response to the hydrologic portion of Andalex's MRP as required by the Division's August 19, 1987 comments and referenced in Andalex's September 21, 1987 letter to you.

There are basically 4 items represented here: Maps, which are to be inserted or replaced as the case may be in Volume II of the MRP (plates 6 through 17). Secondly, appendix L which consists of specific responses to many of the comments. Thirdly, the re-revised sedimentation and Drainage Control plan which replaces the one currently starting on page 166 and ending on page 209. The new plan begins and ends on the same page numbers and should be inserted in place of the old one. Finally is a group of recent water quality data which should be inserted following page 92. It includes data up through the third quarter of 1987.

I believe that this information along with the September 21st submittal will adequately address all of your staff's comments.

Please do not hesitate to call me if any questions should arise.

Sincerely,

Michael W. Glasson
Senior Geologist
Western Operations
