Attention: Susan Linner

Dear Ms. Linner:

We are in receipt of Mr. Wayne Hedberg's letter approving our proposal to substitute topsoil material in place of our long standing "temporary" topsoil pile at the Centennial mines.

This letter is to inform the Division that work has begun on the old "temporary" pad in preparation for placing a shop building on this site, as approved in our recent MRP renewal. All work as agreed to has been performed on the new substitute pile, including the placement of a straw dike to act as protection and the re-routing of drainage from the bathhouse pad from Pond A to Pond C.

Naturally no new surface disturbance will occur and the construction of the shop will be monitored closely to ensure there are no problems with runoff or erosion.

We are aware that the topsoil issue at Centennial has been a dilemma in the past and we appreciate the Division's expeditious approval of our resolution.

Sincerely,  
ANDALEX RESOURCES, INC.
