Attn: Susan Linner, Permit Supervisor

Dear Dr. Nielson:

Enclosed are two copies each of the following:

1. Completely revised and renumbered text for ACT 007/019-1 as per the meeting held in the Divisions office on 10-6-89 with myself, Susan Linner, Dave Darby and Randy Harden. Rick Summers discussed the submittal with Andalex on 10-4-89 in Price at Andalex's office. All changes mentioned by the Division have been made and the NOV has been terminated.
2. A revised and renumbered Table of Contents.
3. A revised and renumbered Cross Reference Table (to be updated further using the Division's Format).
4. Replacement Plates 7, 8, 12, 13, 14 and 15. Because of the new expanded format for plate 15, a separate volume (II-A) is being submitted for the cross sections only (Plates 14 and 15, sheets 18 of 18).
5. A new air quality approval order to replace the one in Appendix J.
6. A new NPDES General Permit to replace the one in Appendix J.
7. The Pond E Slope Stability Study (Palmer/Wilding) to be placed at the end of Appendix K.
8. The revised orifice flow tables to replace those at the end of Appendix O.
9. The sedimentation Pond certification statement to be placed at the end of Appendix N.
