September 5, 1990

Mr. Mike Glasson
Andalex Resources, Inc.
P.O. Box 902
Price, Utah 84501

Dear Mr. Glasson:

Re: Conditional Approval, Exploration Project, Andalex Resources Inc., Centennial Project, CEP/007/019-90B, Folder #3, Carbon County, Utah

The submittal received on August 31, 1990, regarding the exploration of old mine workings in the Aberdeen coal seam has been reviewed by Dave Darby and Randy Harden of the Division's technical staff. Chris Rohrer of the Division's AML group was also consulted. No major concerns were voiced.

The Division approved the above referenced action on August 31, 1990 with the following conditions. 1) A map describing the exploration area and indicating where exploration will occur in relation to an approved permit area must be submitted to the Division (R614-201-223); and 2) Upon completion of the project the operator must permanently close the portal area. (All caved material removed shall be replaced to provide 20 feet of fill unless otherwise precluded.)

Thank you for your cooperation in completing this matter. Please notify the Division upon completion of this project. If you have any questions, please feel free to call.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
