RE: Stipulations R645-301-224 and R645-301-528-350

Dear Ms. Buton:

Enclosed are two copies each of topsoil substitute tests according to table 6 regarding Overburden and Topsoil Management. I believe this will satisfy the requirements of R645-301-224.

I have learned from Commercial Testing and Engineering Co. that the samples of roof and floor material from the Centennial seam and other seams for which I had requested the additional table 6 analyses were discarded for no apparent reason. I have had to retake the samples and resubmit them. As such, I must request an extension to the June 24, deadline for submittal of these results. I have also requested an extension for abatement of NOV number N92-41-2-1 (Paul Baker).

Thank you for your consideration.

Sincerely,  
  
Michael W. Glasson  
Senior Geologist
