June 1, 1992

Mr. Mike Glasson
Andalex Resources, Inc.
P. O. Box 902
Price, Utah 84501

Dear Mr. Glasson:

Re: Approval of Response to Permit Renewal Stipulations, Andalex Resources, Inc.,
Centennial Project, ACT/007/019, Folder #3, Carbon County, Utah

The submittal received on February 28th and May 15, 1992, regarding the above noted permitting action was reviewed and found to be complete and adequate by Priscilla Burton, Reclamation Soils Specialist, of the Division's technical staff.

The Division hereby approves the above referenced action. You must submit eight (8) additional copies of this amendment by June 24, 1992. Copies of analysis discussed in the attached technical memo should also be submitted at that time.

Thank you for your cooperation in resolving this matter.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor

RE: Response to Stipulations for Permit Renewal. Centennial Mine. Andalex Resources. ACT/007/019-92B. Carbon County. Utah. Folder #2.

SUMMARY AND RECOMMENDATIONS:

Information requested in an April 22, 1992 memo regarding stipulations placed on the Centennial permit renewal was received 5/15/92. The narrative information is complete. Approval and incorporation of these page replacements to the MRP is recommended.

The Division is presently waiting for laboratory analysis of information requested in Item #3 of R645-301-224 and Item #1 of R645-301-528.350, due June 24, 1992. These remaining deficiencies are repeated below.

R645-301-224. Substitute Topsoil.

3. On or before May 15, 1992, Centennial must provide the Division with analyses of the substitute topsoil material according to the parameters outlined in Table 6 of the "Guidelines for Overburden and Topsoil Management," (DOGM, 1988).

R645-301-528.350

1. Centennial must provide the results of recent sampling of the roof and floor and coal-seam as outlined on page 43 of the MRP. Analyses of acid forming potential, neutralization potential, soluble cations (Na, Ca & Mg), calculated SAR, pH, EC, hot water soluble Boron and Selenium and texture for the roof and floor of the Aberdeen, Gilson, and Lower Sunnyside seams must be included in Appendix E of the MRP on or before June 24, 1992.
