Re: Completion of Mid Term Review and Approval of Reformatted Plan, Andalex Resources, Inc., Centennial Mine, ACT/007/019-94E, Folder #3, Carbon County, Utah

Dear Mr. Glasson:

The Division has completed a review of the Reformatted Mining and Reclamation Plan for the Centennial Mine which was originally submitted on June 15, 1995 and supplemented through November 30, 1995. While your submittals may not be as concise as we would like them to be, they are complete enough for them to be incorporated into and become part of the Mining and Reclamation Plan. The reformatted plan (amendment 94E) is hereby approved and it is now incorporated as part of the Centennial Mining and Reclamation Plan.

We have enclosed a complete copy of the approved information for your records and to aid you in providing the required copies for distribution to other agencies. Please provide an additional eight (8) copies by January 19, 1996.

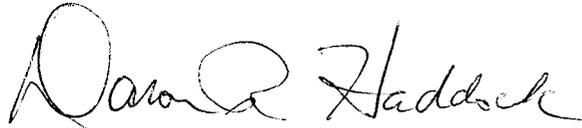

Also, enclosed is the result of the Mid Term review in the form of Analysis and Findings. Please review it carefully. You will note that there are still a few items that need your further attention. The requirements are summarized on pages 39-41. A complete response to these issues must be submitted by no later than January 26, 1996. In order for us to keep our records' straight, please submit the response separate from the copies noted above.
