Re: Incomplete Response to Division Order 99A, Hiawatha Coal Company, Hiawatha Complex, ACT/007/011-DO99A, File #2, Carbon County, Utah

Dear Mr. Finley:

The Division has reviewed your July 9, 1999 submittal which was made in response to Division Order 99A. While some of the Division Order issues have been addressed there still remain some issues that have not been completed. The enclosed technical memo discusses the issues and outlines those items that still must be supplied. Please review it carefully and provide the following information as described.

- The history of the coal cleaning process used at the mine that involved Slurry Pond #1.
- A map of the proposed post-mining configuration of Slurry Pond #1.
- A correction to Appendix IV-9, which removes the statement that Slurry Pond #1 is not eligible by itself, unless another study is provided which documents this.

Please provide the required information by no later than August 20, 1999. Division Order 99A will remain in effect until the requirement have been adequately satisfied.

We look forward to your submittal. If you have any questions, please call me or Susan White.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock". The signature is written in a cursive style.

Daron R. Haddock
Permit Supervisor
