Re: Ditch Amendment, Centennial Minesite, C/007/019

RECEIVED

OCT 20 2003

DIV. OF OIL, GAS & MINING

Dear Mr. Haddock:

Enclosed are 5 copies of a proposed amendment on disturbed ditch designations at the Centennial Minesite. The amendment is to rectify a discrepancy between the map and on site conditions. Ditches designated DD-5 and DD-10 on the Surface Area Drainage Map (Plate 8) have been removed from the map and M.R.P. Ditch DD-5 was shown along the office access road (PR-6); however, due to the narrow road and side slope, there is no ditch along the side. The small amount of runoff here simply flows down the gravel road and goes into a concrete gutter and to ditch DD-6 and Sediment Pond E. Ditch DD-10 was shown as a small stretch of drainage along the southeast corner of the Pinnacle Mine Stockpile Pad between culverts CD-10 and CD-12. There is no defined ditch at this location, due to the constant changing of the stockpile size; rather, the small amount of drainage travels as overland flow between the stockpile toe and the pad berm, where it leaves the pad through culvert CD-12 to catch Basin B as previously shown. Neither of these changes have any impact on culverts or other hydrologic structures or sizing.

Revised pages and Plates for the MRP are enclosed, along with the required C1/C2 Forms.

If you have any questions, or need additional information, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael W. Glasson". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Michael W. Glasson

Senior Geologist

APPLICATION FOR PERMIT PROCESSING
