FROM: Karl R. Houskeeper, Environmental Scientist III, Team Lead *KRH byan*

RE: 2004 Midterm Permit Review, Andalex Resources Inc., Centennial Mine, C/007/019, Task ID #1985

## SUMMARY:

The Division is required to review each active permit during its term in accordance with R645-303-211. This review takes place at the midpoint of the permit term. The midpoint of this permit term is July 4, 2004.

This memo addresses the AVS check that ensures that Ownership and Control information is current and correct and that the requirements of all permit conditions, division orders, notice of violations, abatement plans, and permittee-initiated plan changes are appropriately incorporated into the plan.

The Division assigned Task ID #1886 to the Centennial Midterm Review. The midterm review was sent out deficient on July 1, 2004. The operator responded to the deficiencies on July 23, 2004. The Division assigned Task #1985 to the midterm response.

## TECHNICAL ANALYSIS:

## GENERAL CONTENTS

## VIOLATION INFORMATION

Regulatory Reference: 30 CFR 773.15(b); 30 CFR 773.23; 30 CFR 778.14; R645-300-132; R645-301-113

**Analysis:**

The permittee requested an Incidental Boundary Change (IBC) Task ID # 1919. It was noted in this Task that the violation history was outdated and that it would be required to be updated prior to approval. Once this information is provided to the Division for Task #1919 it will update the approved MRP.

An AVS Check was done by the Division on May 10, 2004. No violations were retrieved by the system. Legal information from the AVS check was compared to the MRP and the information correlated with the approved MRP.

The operator submitted updated violation history that satisfied Task #1919 and Task #1886 on July 23, 2004.

**Findings**

The information provided meets the minimum requirement of this section.

**RECOMMENDATIONS:**

It is recommended that this amendment be approved.
