Jim and Stan,

CCing you both on this email forwarding electronic copies of the Centennial gob vent hole info. Supplemental submittals will also be forwarded to you electronically. Hope it comes through OK. I'll have a hard copy assembled and sent over today also. I called Mike Glassen yesterday and he said he would hand deliver a copy to Steve Falk at BLM Price field office. Mike may also call you Jim to discuss the issue further.

We've set an internal target of 3/15 to try and complete our review of the information on GHV#1. As always, thanks for your assistance and input. Call me if you have questions or concerns with the information.

Wayne

Jerriann Ernstsens asked me to e-mail you the attached information regarding the above-referenced, with a request to consider the exclusionary period.

Note: Additional information will be forthcoming.

If you have any question regarding this e-mail contact;
