Subject: GVH 10

Wayne,

Thank you and thanks to your staff, particularly Joe, for your efforts on ANDALEX's behalf on the proposed GVH 10. We are running into a situation as of today with the longwall panel which could very easily require us to drill GVH 5A after all and as such will not plan to drill GVH 10 at this time.

Would you like me to write a letter to the Division to this affect?

We will truly not let this happen again next year Wayne.

regards,
Mike
