Re: Surface Fan Amendment or the Centennial Project
ACT/007/019, Carbon County, Utah

Henry J. OK
0/007/0019
#2659

Dear Ms. Littig,

Enclosed are five copies each of materials pertaining to the review and approval of the new surface fan installation at the Centennial Project. As you are aware, this installation is in an effort to achieve compliance with the Mine Safety and Health Administration requirements for ventilation at the Aberdeen underground mine.

These requirements include the addition of a "forced-air" fan to push air through a shaft, which has been raised-cored rom the Aberdeen Mine workings up to the Aberdeen surface facilities. This installation requires an additional disturbed area at Centennial of 0.02 acres, which is very easily handled by the existing sedimentation and drainage control plan.

The requirement for this additional ventilation is immediate and contractors for the fan installation and shaft drilling have been hired and are standing by.

The required C1-C2 forms are included. If you have any questions, or need additional information, please let me know.

Sincerely,
Michael W. Glasson
Michael W. Glasson
Manager of Operations
