Subject: Permit Change for Guard Shack, Task #3085, Andalex Resources, Inc. (Andalex), Centennial Mine, Permit # 007/0019,

Dear Mr. Shaver:

The Division has reviewed your application to add the construction of a guard shack to the existing permit.

The Division has determined that there is one deficiency that must be addressed before a determination can be made that the requirements of the R645 Coal Mining Rules have been met, and an approval can be granted. The deficiency is listed as an attachment to this letter.

Each deficiency identifies its author by that author's initials in parentheses, such that your staff can directly communicate with that individual should any questions arise relative to the preparation of Andalex's response to that particular deficiency.

Please respond to the deficiency as soon as possible, but no later than 30 days from the date of this letter, such that we may efficiently process your application. The plans as submitted are denied. Please resubmit the entire application.

Sincerely,

James D. Smith
Permit Supervisor

Deficiency List
Task No. 3085
Permit Change for Guard Shack

The members of the review team include the following individuals:

April A. Abate (AAA)

R645-301-812.700/820.113: The Permittee has not provided the Division with updated reclamation cost estimates that include the cost to construct and reclaim the guard shack. A line-item inclusion to the bond calculations should be submitted to include the construction and reclamation costs of the guard shack structure (AAA).
