<input checked="" type="checkbox"/> Modified as follows: The Division determined on July 27, 2009 that GVH's #1 and #5 needed to be reclaimed. The original date established by N10040 to have reclamation work completed for all wells which were determined to have no future use for mine venting or commercial gas sale was established as August 20, 2009. The Permittee has nearly completed financing and contract negotiations for well plugging and earthwork / reclamation activities. More time is needed to complete the actual work. The Permittee requested a time extension to complete the field reclamation work on 8/17/2009 @ 2:26 PM. The Division will allow an additional 30 calendar days to complete all reclamation activities on GVH #1 and GVH #5, (until September 19, 2009 @ 17:00 hours). All work must be completed by that time. Reason for modification: The Permittee has requested more time to complete the plugging and reclamation of GVH's #1 and #5.
