**Subject:** Centennial herbicide

Hi Dave- You should have just received the NOV for centennial. I did not include specific herbicides in the NOV as you requested. It needs to be a broadleaf herbicide such as weedmaster or milestone (which is what skyline uses as we discussed). According to R645-301-357.321, herbicide application must follow the Weed Control Handbook published annually or biannually by the Utah State University Cooperative Extension Service. Please use this handbook for application of the herbicide as well as for recommendations on planting dates after herbicide use. Let me know if you have any questions. Thanks!
