Subject: Deficient Renewal Application Task ID #3896, Andalex Resources, Centennial Mine, C/007/0019, Outgoing file

Dear Mr. Shaver:

On September 8, 2011 the Division received your application for permit renewal for the Centennial Mine (C/007/0019). The Division has reviewed the application and found that it does not meet the requirements of the Utah Coal Mining Rules dealing with renewals found at R645-303-230 et. seq.

The following deficiencies were identified:

- **R645-301-123**: The C1 form was signed but not notarized. All applications submitted to the Division must be accompanied by a notarized signature.
- **R645-303-232.220**: The application must include evidence that a liability insurance policy will be provided for the proposed period of renewal.
- **R645-303-232.230**: The application must include evidence that the performance bond will continue in full force and effect for any renewal requested.
- **R645-300-121.200**: The proposed newspaper notice must indicate that the application is available for review at the recorder's office at the county courthouse.

Please submit a revised application which addresses the above deficiencies as soon as possible so that the public notice process can proceed.

Please don't hesitate to contact me at (801) 538-5325 if you have any questions.

Sincerely,

Daron R. Haddock
Coal Program Manager
