2. Signs and Markers

The carbon county road leading to the mine site is where the mine identification sign has been historically located. The sides of the road have been graded and the mine identification sign is no where to be found. The road delimiter signs and sped signs have also been removed and/or damaged.

Jay Marshall came by the Price Field Office at 2:00 pm. Jay Had found the sign in the gob near the metal arch way. Jay re-posted the sign on the metal archway near the permit boundary. Jay showed a picture displaying this placement to the Division Inspector. The sign is damaged and a new sign is being ordered to replace it.

Contacted Jay Marshall by phone at the conclusion of the field inspection and apprised him of the situation. Jay indicated that he would attempt to find the sign and if that wasn't possible that a new sign would be acquired and installed.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

Cleaning has taken place in Pond B. Cells 1 of 4, 2 of 4 and 3 of 4, were cleaned.
