In accordance with the provisions of the Utah Coal Mining and Reclamation Act, Utah Code Ann. § 40-10-1 et. seq. (Act), the above referenced Citation is:

Modified as follows:
The June 1, 2018 field issued Cessation Order was given number 21214 in the Division's database.

The condition of imminent danger has been abated by the replacement of valves at wells 5A, 7, and 9. The first two abatement measures have been accomplished.

The remaining abatement measures stated in the field issued citation are in effect for wells 3, 4, 5A, 6, 7, 7A, 11, 12, 13, 14, 15, 16 and 17.

Reason for modification:
Photographs of the replaced valves were sent to the Division on June 25, 2018 (Incoming .06252018.5688)
A site inspection on 9/25/2018 confirmed that wells 5A, 7 and 9 are no longer leaking audibly (Insp. Rpt. 6248).
The Informal Conference Order, dated 8/27/2018, upheld the abatement measures for final closure and reclamation of well sites and wells drilled into the relinquished BLM coal leases. The requirements to cap and seal and reclaim well sites 8, 8A, and 9, above the Mathis Fee Lease, were vacated by the Informal Conference Order. (Outgoing 8272018.5688).
