3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Attn: Rick Smith

Dear Dianne:

Enclosed is a map of the raptor inventory I conducted on June 5, 1989 for the Blue Blaze Mine in Gordon Creek. One active Golden Eagle nest (#189.01D) with 2 young was found and three inactive golden eagle nests (#189.01-A,B,C) within the same territory were also found. The one half-mile buffer zone has been drawn around the nest sites.

The survey was conducted using a Jet Ranger Helicopter. The area surveyed is also outlined on the enclosed map.

If you have any questions or need additional information, please feel free to contact me or Larry Dalton.

Sincerely,

Miles Moretti
Nongame Manager
