Dear Mr. Skaggs:

Re: Department of Health Review of Permit Application Package, Blue Blaze Coal Company, Blue Blaze Mine, PRO/007/020, Folder #2, Carbon County, Utah

Attached is a technical review of the Permit Application Package (PAP) from the Department of Health. The applicant is required to obtain the necessary permits prior to permit approval. Before the permit can be considered complete, the PAP must contain the information required by the Southeast District Engineer, Division of Environmental Health, concerning waste water, culinary water, and sedimentation pond.

Please contact the Department of Health if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Susan M. White for".
