Attn: Pamela Grubaugh-Littig

Dear Dianne:

I am responding to the second completeness review for the Blue Blaze Mine. After reviewing the updated materials we determined not all of our concerns (August 16, 1990) were addressed. Specifically, we requested the company to adjust plate 10-6, which was included in the new materials as 10-b, by showing the high-priority elk summer range as critical elk summer range. This was not accomplished. The map designations should be C-E-SU instead of H-E-SU. The text (10-20) should also be changed to reflect this adjustment in classification.

Thank you for the opportunity to review and provide comment. If we can be of any further assistance in this matter, please contact Ken Phippen of our Southeastern office (637-3310).

Sincerely,

  
Timothy H. Provan  
Director
