Re: Water Quality Data, Horizon Mine, Horizon Coal Company,  
PRO/007/020, Folder #2, Carbon County, Utah

Dear Mr. Bourquin:

I have reviewed the above referenced material, received in this office on November 20, 1995, and offer the following comments for your consideration. The comments from this Division will center around water issues involving water rights, stream channel alteration work, issues related to impoundments, and water monitoring well permits.

- 1) Pages 3 of both Attachments to Appendix 7-2 and to Appendix 7-3 mention work done to widen the road near Sample Site 5 on North Fork Gordon Creek. We would like the opportunity to inspect this site for possible stream alteration permitting or mitigation.

If I can be of further assistance, feel free to contact me at 637-1303.

Sincerely,

Casey Ford  
Assistant Regional Engineer
