Examination for bats in old mine workings

Dear Ms. Grubaugh-Littig:

On December 12, 1995 I examined the old works of the Blue Blaze No. 1 Mine. I traveled into both the track slope and fan portals that are currently fenced but not sealed. No bats were observed during this examination.

If you have questions regarding this mine examination please call me at (303) 989-4242.

Sincerely,

Bradley J. Bourquin
